

**PROGRAM AND PRICING
INFORMATION**

The Links for Learning program will provide your child with the skills and confidence to succeed in school. Our blended learning program provides direct support as well as on-line instruction.

Pricing will vary according to individual need.

Programs will be designed on an individual basis to include an assessment of current skills and customized study topics based on the results.

INITIAL CONSULTATION IS FREE

Staff will meet with parents/guardians and student(s) to determine need(s).

Once enrolled, student(s) will be assessed. Assessment times will vary depending on individual need(s) and will be billed a one-time fee of \$25.00

All Southeast Job Link program participants are assured of non-discrimination based on race, color, sex, marital status, religion, national origin, disability, age, political affiliation, citizenship or beliefs. Auxiliary aids and services are available upon request to individuals with disabilities.

**Help your child “get ahead”
before they get behind.**

THE LEARNING CENTER
AT SOUTHEAST JOB LINK

**Not only do we help
improve grades—
we help improve lives!**

Southeast Job Link is excited to offer a new program to assist students in improving their academic knowledge, which will

sustain them throughout their lives!

Southeast Job Link offers fun and exciting methods of helping children improve their grades, build confidence and increase motivation.

**INDIVIDUALIZED
APPROACH :**

Assessment / Evaluation—Southeast Job Link knows that children need more than a quick fix to improve a grade. We offer an approach that begins with evaluating academic needs to identify specific areas where the child is struggling and where the focus needs to be placed for success in all learning areas.

Individualized Learning Programs—Based on the results of the assessment, a personalized program will be designed to focus on the child's individualized needs.

Trained Staff / One-on-One Attention- With qualified educational staff, we seek to provide training in a variety of capacities from group learning and activities to one-on-one learning focusing on specific area of need.

Building Confidence and

Motivation—We want to help break the “failure chain” cycle that develops when children become frustrated with school and consequently give up on learning. By helping children master skills that are critical to learning, it helps to boost confidence and strengthens their motivation to learn.
