### INTRO TO WORD 2007.....\$85

In MS Word 2007 Beginner students are presented with the basic features of word 2007. Students create, edit, and save documents, manipulate and format text and paragraphs, find and replace text, and use proofing tools.

### INTRO TO EXCEL 2007.....\$85

In Excel students create, modify, print, and format worksheets, work with basic formulas and function, use multiple worksheets, enhance worksheets, use styles and Auto formats, and work with charts.

### INTRO TO OUTLOOK 2007.....\$85

This course provides competency in working with contacts, using e-mail, formatting and managing messages, creating and managing tasks, working with the Calendar, creating and managing notes, and finding and organizing Outlook information.

### INTRO TO PUBLISHER 2007.....\$85

Students will learn how to create and edit publications, arrange text and pictures, work with master pages, and create and format tables. You will also learn how to flow text across text boxes, create a facing-pages layout, export publications to PDF, and prepare publications for commercial printing.

### INTRO TO POWERPOINT 2007.....\$85

In PowerPoint students learn how to create, modify, format, build and run PowerPoint slide shows, as well as use WordArt, ClipArt, and graphic objects.

### INTRO TO ACCESS 2007.....\$85

In Access students learn how to create and modify tables, create queries, use filters, create and modify forms, create and modify reports, and enhance reports.

All Required Books and Materials Included in Price of Course!
